

ANNUAL REPORTS

OF THE

SELECTMEN

AND OTHER TOWN OFFICERS

SUNAPEE,

NEW HAMPSHIRE

FOR THE YEAR ENDING

JANUARY 31, 1918

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Sunapee, in the County of Sullivan, in said State, qualified to vote in Town Affairs.

You are hereby notified to meet at I. O. O. F. Banquet Hall, in said Sunapee, on Tuesday, the twelfth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

- Art. 1. To choose a Town Clerk for the year ensuing.
- Art. 2. To hear the reports of the Town Treasurer, Board of Selectmen, Water Commissioners, Auditors, Agents and Committees or other Officers heretofore chosen and pass any vote relating thereto.
- Art. 3. To choose all necessary Town Officers for the year ensuing.

Art. 4. To see what sum of money the town will raise to pay the outstanding debts and interest on its notes and water bonds, and pass any vote relating thereto.

Art. 5. To see what sum of money the town will raise to defray town charges for the year ensuing, and pass any vote relating thereto.

Art. 6. To see what sum of money the town will raise to repair Highways and Bridges for the year ensuing, and pass any vote relating thereto.

Art. 7. To see if the town will vote to raise (\$800.00) Eight Hundred Dollars to maintain its Trunk Line Highway, and pass any vote relating thereto.

Art. 8. To see if the town will vote to raise (\$2,137.50) Two Thousand One Hundred Thirty Seven Dollars and Fifty Cents, to build its Central Trunk Line, and pass any vote relating thereto.

1918

Art. 9. To see if the town will vote to accept State Aid for highways, and pass any vote relating thereto.

Art. 10. To see what sum of money the town will raise for electric lights, and pass any vote relating thereto.

Art. 11. To see what sum of money the town will raise to maintain its Fire Department, and pass any vote relating thereto.

Art. 12. To see what the sentiment of the town is in regard to finishing the State road or a proportion of it between Sunapee and Georges Mills, and if necessary to instruct the Selectmen to hire money for that purpose, and pass any vote in relation to said road.

Art. 13. To see what sum of money the town will raise for the care of its Cemeteries, and pass any vote relating thereto.

Art. 14. To see what sum of money the town will raise for the maintenance of its Public Library, and pass any vote relating thereto.

Art. 15. To see what sum of money the town will appropriate to pay on its Water Bonds, and pass any vote relating thereto.

Art. 16. To see if the town will vote to license Junk Dealers, and pass any vote relating thereto.

Art. 17. To see if the town will vote to instruct its Selectmen to hire money on the anticipation of taxes, and pass any vote relating thereto.

Art. 18. To see what action the town will take in regard to Celebrating its 150th. Anniversary, and pass any vote relating thereto.

Art. 19. To see what sum of money the town will raise for the observance of Old Home Week, and pass any vote relating thereto.

Art. 20. To see what action the town will take toward providing an Office for its Selectmen, and pass any vote relating thereto.

Art. 21. To see if the town will vote to add one Street Light on Chase Street, and pass any vote relating thereto.

Art. 22 To elect a delegate to the Constitutional Convention.

SUNAPEE TOWN REPORT

Art. 23. To see if the town will vote to take over the private road at Garnet Hill now owned by the G. H. Bartlett Estate, and pass any vote relating thereto.

Art. 24. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this twenty fifth day of February, in the year of our Lord nineteen hundred and eighteen.

FRANK M. HARDING,	} Selectmen of	
GEORGE E. GARDNER,		Sunapee.

ENGINEERS' REPORT OF FIRE DEPARTMENT

We hereby submit our annual report for the year ending January 31, 1918.

We have endeavored to keep the apparatus and department up to the high standard it has held in former years, and when it has been called on for duty it has not been found wanting. It has been a very fortunate year for fires but every member has been ready to answer the call if it should come whether in town or some other town. It has been called on to help other towns twice during the year and they have shown the same spirit to respond and fight as they would had it been their own homes. We hope that the year to come will be more fortunate than the one that has passed.

There has not been anything new added to the department during the year, the most important part of the equipment of a department is hose, as it goes back every year whether it is used or not, and to keep the supply in good condition to be relied on there should be a few hundred feet bought as often as possible.

Alarms during the year.

May 18, Box 19. Newport.

Oct. 2, Box 19. New London.

Oct. 12, Box 19. A. S. Abbott.

Jan. 29, Blacksmith shop at Georges Mills, which was handled by Hose Co. No. 3, in a very creditable manner.

The department lost a very able and interested member in the death of Asst. Engineer Alvin A. Young in the past year, and he is missed by all.

Thanking all for what they have done in the past, and wishing for the co-operation of all in the future.

Respectfully submitted,

F. M. SARGENT,

REPORT OF HEALTH OFFICER

The past year has been very satisfactory. Contagious diseases have been few and deaths from same none.

The town of Sunapee owes its appreciation to the Lake Sunapee Protective Corporation which takes the initiative in looking after the sanitary conditions on and around Sunapee Lake from which the village takes its water supply, and your Health Officer, who is the secretary and treasurer, would solicit membership dues of one dollar per year from those who are benefited and able to pay.

Respectfully submitted,

A. D. FELCH, Health Officer.

SCHOOL REPORT

DISTRICT OF

SUNAPEE, N. H.

1918

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School District of Sunapee qualified to vote in District Affairs:

You are hereby notified to meet at the I. O. O. F. Banquet Hall in said district on Saturday the sixteenth day of March 1918, at two o'clock in the afternoon to act upon the following subjects.

Art. 1. To choose a Moderator for the ensuing year.

Art. 2. To choose a Clerk for the ensuing year.

Art. 3. To choose a member of the School Board for the ensuing three years.

Art. 4. To choose a Treasurer for the ensuing year.

Art. 5. To choose one or more Auditors, and such other officers, and agents, as the voters may judge necessary.

Art. 6. To hear and act upon the report of the School Board, Treasurer, Auditors, and Committees heretofore chosen.

Art. 7. To see what sum of money the District will raise for school purposes above what is required by law.

Art. 8. To see if the District will vote to raise \$700.00 to repay the town for money loaned for a new furnace at the Center School.

Art. 9. To see what sum of money the District will raise for repairs.

Art. 10. To see what sum of money the District will raise to pay the salaries of its School Board, Truant Officer, Clerk and Treasurer.

Art. 11. To see if the District will vote to dispense with the services of the present Superintendent of Schools, and pass any vote relating thereto.

Art. 12. To transact any other business that may properly come before said meeting.

Given under our hands at Sunapee this twenty eighth day of February 1918.

ALBERT D. FELCH,	}	School Board of Sunapee.

REPORT OF SCHOOL BOARD

As matters of general interest have been depicted by the Superintendent of Schools, your School Board will deal largely with the financial situation, although regarding schools we would voice the sentiment of Mr. Ellingwood. We feel that the schools have been well cared for under his supervision and in adopting the Agricultural and Domestic Science courses there has been more interest in the High School and that the courses will prove to be of more benefit to our boys and girls than the Academic and Commercial courses. The success of the High School depends not so much on the money raised as the patronage which may be given it, and for the good future of the school we solicit the patronage especially of our own town pupils.

Financial

The effect of the war on the teaching fraternity has caused increase in salaries and some changes in our schools during the year. This, with the high cost of fuel and school supplies, has drawn hard on the school money and the coming year holds out little encouragement along these lines.

The state department strongly advocated that we accept Federal aid for the agricultural department, which could be had by retaining the Principal for the year, tutoring the boys in agricultural work during the summer, the Gov-

ernment paying one-half the expense, but this we regretfully rejected as we did not feel justified in adding extra burdens at this time

The matter of transporting the pupils from the old No. 2 District to the Center School is worthy of your consideration, as it might seem wise in the near future, should other families move into the district, to reestablish a school in that district. We regret that transportation cannot be obtained at a low figure for both the old No. 2 and the Collins District to the Center School where pupils could be easily cared for and better graded.

We have endeavored to hire normal school graduates when possible for the benefit of the schools, also that the district might receive in return \$2.00 per week from the State for each teacher providing average attendance is secured. The average attendance is figured on the number of pupils enumerated in September of each year coupled with the assessed valuation of the town, and while the valuation has not decreased, the number of pupils have, on account of removals from town, consequently the district has lost about \$500. which is more needed at this time than in the time of the town's prosperity when the average attendance could be more easily kept up.

Complaint was made last year by the State Board of Health against the sanitary condition of the Wendall school building, also the conditions inside the school room. This matter was brought to the attention of the district at the annual meeting in 1917 and it was voted to raise \$500. for repairs. A large part of this could have been easily expended at the Wendall school, but instead the four rural school buildings have been put in shape satisfactory to the

State, cement fly proof vaults have been provided in each district, the toilets separated, and at South Sunapee, Wendall and Collins districts private entrances made for the girls. Other changes were made which are noted in the Superintendent's report.

We are very sorry to report the loss of the steam boiler at the Center School during the spring term of 1917 caused by a check valve not performing its required function, allowing the water to leave the boiler when a new fire was built, and when the fire subsided the return of the water to the heated boiler broke four sections and the manifold. As the cost of repairs was so heavy and the possibility of keeping the school closed a month or more, besides the possibility of the boiler showing other weaknesses after the repairs were made, your School Board was justified, we believe, in installing a new boiler with seven hundred cubic feet more heating capacity and only one lost day for the school. Mr. Fred E. Newcomb, who installed the new boiler, estimated that the old boiler had served a third of its usefulness, that the new boiler was worth at least \$200. more than the old boiler and that it would save the district ten tons of coal per year. That the boiler is a saver of fuel and a better heater we can now testify to, and if the old boiler can be sold at a fair price the loss to the district will not be as much as it seems at first thought

With our school buildings in good shape, needing only minor repairs, and with the hope that the Domestic Science department will interest itself to take care of its supplies in the future by holding sales, etc. and that with what the district will be asked to raise the Agricultural Department can be better supplied, we feel that your

rural schools and High School will compare favorably with other schools of like nature in the State.

We thank the district for their forebearance of our weaknesses and mistakes if there are any—and there must be—and ask a continuance of your interest in the schools as the town's best asset.

Respectfully submitted,

ALBERT D. FELCH,	} School Board of Sunapee.
DAISY E. YOUNG,	
HATTIE M. SMITH,	

Report of Superintendent of Schools

I hereby submit my second annual report for your consideration and approval.

There have been many improvements made on your school property during the year. The outbuildings have been greatly improved and are no longer a disgrace to any town. Mr. Felch did good work remodelling these buildings; and it seems to us that he did it very cheaply. They are now sanitary and respectable. Many improvements have been made on the interiors of several buildings. The jacketing of the stoves and installing thereby ventilating

systems is one of the greatest improvements made. These systems make it possible to admit warm fresh air all the time and not overheat, or too suddenly cool off any pupil. They have done much to make pupils more comfortable.

The outside of the buildings have been much improved in appearance. Several trees have been cut away improving the light. Desks and seats have been re-arranged to make the pupils more comfortable. All these improvements increase the efficiency of the schools.

We are in great need of better and more blackboards in the rural buildings. Blackboards are very essential in school work. We would recommend hyloplate board. This is not very expensive and it is very satisfactory. It is easily installed and is guaranteed to give service for ten years.

Drinking fountains should be installed in each rural building.

Teachers

We have been unfortunate to lose so many of our teachers during the year. Miss Georgia Rowell is the only teacher with us now who was with us a year ago. Most of them have resigned to accept better paying positions in other states. We cannot expect to keep a sixteen or eighteen dollar teacher very long for twelve or fourteen dollars. Teachers' expenses have advanced same as other peoples' and they must be paid accordingly. Teachers are becoming more and more scarce each year. This is especially true of young men teachers. It is going to be increasingly difficult to secure men principals for small high schools.

Although we have lost so many teachers we have been quite successful in filling their places. We are very positive that the scholarship of all the schools is far in advance of what it was a year ago. Before this year closes we will have data to show you what improvements have been made along this line. A year ago there were several pupils in town even in the upper grades who did not know the

multiplication tables. We are sure there will be none in town above the third grade at the end of the year who do not know them. Our greatest improvements have been made in arithmetic, spelling, reading and English.

Our present corps of teachers are trying hard to improve the schools and most of them, if not all of them, are succeeding. They are willing to take suggestions and do their best to carry them out. With this spirit continued on their part we are sure we will have a successful year.

During the four terms we have been with you we have visited your teachers two hundred eighty-four times. This is counting the several visits we make the village teachers in one day as only one visit to a teacher. Thus we have kept very close to the work being done.

We have held several teachers meetings at which we have discussed school affairs and tried to show the teachers how they might improve their work. Most of the teachers report these meetings very helpful. We would hold them oftener were it possible to get the time when all could attend.

Course of Study

Domestic arts and agriculture were introduced last fall into the high school. Both courses are doing good work. We feel that the domestic course is doing the better as the facilities for teaching it are better. Either course is likely to be criticised more or less the first year in small communities. The citizens have their own ideas of these subjects more than they do of the scholastic branches. Many think all there is to domestic science is to be able to cook and sew but these are only two of the objects in teaching it. I have yet to see the woman who cannot learn something in cooking if she only will. The best cooks I know are those who are anxious to learn new recipes and how to use them. The person who knows it all in any branch of life's work is a pretty narrow person. I am pleased with the way the girls and boys have taken hold of this work. I

hope the boys will see to it that they have the required amount of summer work looked out for that is required in the agricultural course.

Several changes have been made in the program of studies in the grades and others are under consideration. The sixth grade is as far advanced in English grammar today as the eighth grade was a year ago. We are just beginning to introduce some algebra and concrete geometry into the seventh and eighth grades. They seem to grasp it readily and to enjoy it.

The work in music has been improved under Miss Bateman's supervision. Mr. Neal has also helped the music in the upper grades and high school. Music books are needed in these rooms.

Attendance

The attendance is not as good in any of the schools as it ought to be. It has improved in some of them but pupils and parents do not seem to realize how important it is that each child should be present every day. The South Sunapee and Collins schools would do much better to run in the summer time instead of the winter. Much time is lost, so much in fact, that we doubt very much it being wise to spend the town's money for so few days attendance. These schools are small and attendance very poor. Teachers and pupils get discouraged.

The attendance at the Wendell school has greatly improved; so has the work of the school.

In closing we wish to thank you for your help and cooperation. The only way to have good schools is for all concerned to work together in harmony. Not that we need always to agree at first but that we must all come to some agreement before any task is undertaken. In union there is strength but in discord there must be failure.

Respectfully submitted,

W. H. S. ELLINGWOOD, Supt. of Schools.
